

Tolson Congratulates Carnegie College

Jim Tolson MSP for Dunfermline West submitted a motion to the Scottish Parliament this week welcoming the very good HMI report for Carnegie College and congratulating Professor Bill McIntosh, and staff and students on their achievements over recent years.

Jim said “I am grateful to the college for the opportunities it provided me, initially as an apprentice at the dockyard and in more recent years as a mature student. Whilst studying for an HND in Computer Networking at Lauder College, the staff encouraged me to apply for a university place. Without help and encouragement at this time I would not have had the confidence to apply for and study successfully for a degree at Napier University.”
