

TOLSON TO DISCUSS ROSYTH WALKOUT

Jim Tolson, Scottish Liberal Democrat MSP for Dunfermline West has written to Babcock Engineering Service asking to discuss yesterday's walkout from Rosyth Naval Dockyard when he meets with the Deputy Managing Director later this month. Staff walked out yesterday following a dispute about pension arrangements.

Commenting, Mr Tolson said "The management team at Babcock Engineering Service must engage with Union representatives to prevent a reoccurrence of yesterday's walkout. There are clearly issues that need to be resolved with the new pension arrangements before they are implemented. I hope to discuss how best the company and Unions can proceed in resolving this issue."
