Tolson Welcomes Best Value Report on Fife Council

The Accounts Commission published its Best Value Report on Fife Council last week. The Council has been praised for its clear strategic direction, ambition and developing a culture of continuous improvement.

Jim Tolson MSP for Dunfermline West “After years of decline under Labour, the Lib Dems on Fife Council are making a real difference.

There are still improvements needed but I have confidence in my colleagues on Fife Council that they will achieve these in the future. However I am aware there is still some way to go to become the best performing council in Scotland.”
