Tolson welcomes forthcoming consultation on high hedges

Jim Tolson MSP for Dunfermline West has welcomed the news from the Minister for Community Safety, Fergus Ewing regarding a consultation on the long standing high hedges issue.

Jim said “Many people across the area have been complaining about this issue for years now. Since being elected I have questioned and written to the Minister on many occasions, but so far I haven’t receiving any satisfactory answers. At long last, we have a positive move from the Scottish Government! Following a meeting with the Minister, his officials and representatives of Scothedge, they have now agreed to launch a consultation paper in the summer.

I must urge members of the public with any concerns about high hedges to take part in the consultation.”
